**BEAUTIFUL STRENGTH  
MINIMALIST DESIGN**

**BlueScope**

# The designer finish that compliments your architectural design effortlessly.

Matt is undoubtedly the new black in architecture design. Subtle and yet versatile, matt finish can elevate any design almost instantly and effortlessly. And that is why we crafted COLORBOND® MATT steel for the external cladding application of your architectural designs.

With an innovative paint formula intelligently designed to achieve a gloss unit of less than 10, COLORBOND® MATT steel drastically reduces the specular reflection of the cladding surface, providing a softer and classy look to your building design. COLORBOND® MATT steel is available in a range of tastefully selected colour choices to suit both contemporary or classic architectural designs.

## 1 HIGH CORROSION RESISTANCE

COLORBOND® MATT steel is incorporated with BlueScope's proprietary metallic coating technology – ZINCALUME® AZ150 Aluminium/Zinc alloy coated steel base substrate. It offers superior weathering performance under varied conditions.

## 2 INSPIRING, LONG LASTING COLOURS

By utilising optimum paint formulation and pigment blends, our proprietary super polyester paint system offer longer-lasting colour and better paint delamination resistance.

## 3 CLEAN TECHNOLOGY

Best defence against tropical staining, Clean Technology prevents dirt from bonding onto the surface of COLORBOND® MATT steel and superior tropical stain resistance, hence maintaining its attractiveness for a longer period.

## 4 THERMATECH® TECHNOLOGY

Less heat, more comfort. Thermatech® Technology incorporated into COLORBOND® MATT steel's paint system effectively lowers peak roof temperature by up to 6°C\* compared to conventional paint of the same colour.

\*Depending on level of insulation, colour, building shape and function.

## 5 WITHSTANDING THE TEST OF TIME

COLORBOND® MATT steel had gone through extensive tests which include accelerated laboratory corrosion tests, real-world outdoor exposure tests and actual project case studies to ensure its performance met the highest expectation in durability.

## 6 EMBEDDED BRANDING TEXT ON THE REVERSE SIDE OF STEEL SHEET

Embedded with branding text on the reverse side of every COLORBOND® MATT steel sheet, this is BlueScope's commitment to quality and our assurance to you for product genuinity.

# Colorbond® MATT

Offering you a vibrant selection of colours to match your most prestigious designs.

**Winter Matt (SRI:80)**

**Scallop Matt (SRI:79)**

**Coffee Matt (SRI:65)**

**Hidden Matt (SRI:47)**

**Graphite Matt (SRI:26)**

**Eclipse Matt (SRI:18)**

SRI is calculated using ASTM E1980-01 with Medium Convection Coefficient (12) value reported. This data is approximate values only, may vary based on paint formulation and/or metallic coating thickness.

The colours shown in the colour chart have been reproduced to represent actual product colours as accurately as possible. However, we recommend you to check your chosen colour against actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones.

For product identification and originality, please check the reverse side of the sheet for the following branding text.

Clean COLORBOND (R) MATT steel made by BlueScope 16:18 01:MAY:21 II
