ULTRA MATT

BEAUTIFUL STRENGTH  
STYLE THAT MATTERS

  
BlueScope

# Ultimate steel solution to meet the highest performance expectation of harsh environments.

Developed specifically for external cladding application in severe coastal and harsh industrial environments, COLORBOND® ULTRA steel's AZ200 ZINCALUME® coating class is the secret to its exceptional performance. Complimented with superior paint technology, COLORBOND® ULTRA steel guarding off the harmful effect of sea breeze, industrial fall-outs and other corrosive deposits, delivers the durable protection much needed for buildings in severe environments.

Subtly stylish, COLORBOND® ULTRA MATT steel minimize glare issue, hence maximizing visual comfort, making it the ideal choice for cladding application in the tropics.

## 1 HIGH CORROSION RESISTANCE

COLORBOND® ULTRA & COLORBOND® ULTRA MATT steel is incorporated with BlueScope's proprietary metallic coating technology – ZINCALUME® AZ200 Aluminium/Zinc alloy coated steel base substrate. It offers superior weathering performance under severe coastal and harsh industrial environment.

## 2 INSPIRING, LONG LASTING COLOURS

By utilising optimum paint formulation and pigment blends, our proprietary super polyester paint system offer longer-lasting colour and better paint delamination resistance.

## 3 CLEAN TECHNOLOGY

Best defence against tropical staining, Clean Technology prevents dirt from bonding onto the surface of COLORBOND® ULTRA & COLORBOND® ULTRA MATT steel and superior tropical stain resistance, hence maintaining its attractiveness for a longer period.

## 4 THERMATECH® TECHNOLOGY

Less heat, more comfort. Thermatech® Technology incorporated into COLORBOND® ULTRA & COLORBOND® ULTRA MATT steel's paint system effectively lowers peak roof temperature by up to 6°C\* compared to conventional paint of the same colour.

\*Depending on level of insulation, colour, building shape and function.

## 5 WITHSTANDING THE TEST OF TIME

COLORBOND® ULTRA & COLORBOND® ULTRA MATT steel had gone through extensive tests which include accelerated laboratory corrosion tests, real-world outdoor exposure tests and actual project case studies to ensure its performance met the highest expectation in durability.

## 6 EMBEDDED BRANDING TEXT ON THE REVERSE SIDE OF STEEL SHEET

Embedded with branding text on the reverse side of every COLORBOND® ULTRA & COLORBOND® ULTRA MATT steel sheet, this is BlueScope's commitment to quality and our assurance to you for product genuinity.

Offering you a vibrant selection of colours to match your most prestigious designs.

**Amazing White (SRI:82)**

**Enduring White (SRI:80)**

**Ultimate Grey (SRI:66)**

**Livid Grey (SRI:48)**

**Ore Grey (SRI:28)**

**African Charcoal (SRI:20)**

**Sonata Matt (SRI:80)**

**Oyster Matt (SRI:79)**

**Latte Matt (SRI:65)**

**Alley Matt (SRI:47)**

**Iron Matt (SRI:26)**

**Granite Matt (SRI:18)**

SRI is calculated using ASTM E1980-01 with Medium Convection Coefficient (12) value reported.  
This data is approximate values only, may vary based on paint formulation and/or metallic coating thickness.

The colours shown in the colour chart have been reproduced to represent actual product colours as accurately as possible.  
However, we recommend you to check your chosen colour against actual sample of the product before purchasing,  
as varying light conditions and limitations of the printing process may affect colour tones.
