

Colorbond® XPD  
PEARLESCENT

BEAUTIFUL STRENGTH  
INTENSE SHIMMER

BlueScope

# Outstanding steel solution that brings out the true iconic features.

The lines between various architectural styles are often blurred, but with COLORBOND® XPD PEARLESCENT steel, your iconic design appears distinctively differentiated unlike any other.

COLORBOND® XPD PEARLESCENT steel radiates a soft and yet astonishing pearlescent sheer effect, giving inspiration to designers to achieve the lustre design effect desired for the cladding of your architectural designs.

## 1 HIGH CORROSION RESISTANCE

COLORBOND® XPD PEARLESCENT steel is incorporated with BlueScope's proprietary metallic coating technology – ZINCALUME® AZ150 Aluminium/Zinc alloy coated steel base substrate. It offers superior weathering performance under varied conditions.

## 2 INSPIRING, LONG LASTING COLOURS

Custom formulated 70% PVDF paint system with high-performance pigments for excellent colour performance.

## 3 CLEAN TECHNOLOGY

Best defence against tropical staining, Clean Technology prevents dirt from bonding onto the surface of COLORBOND® XPD PEARLESCENT steel, hence maintaining its attractiveness for a longer period.

## 4 THERMATECH® TECHNOLOGY

Less heat, more comfort. Thermatech® Technology incorporated into COLORBOND® XPD PEARLESCENT steel's paint system effectively lowers peak roof temperature by up to 6°C\* compared to conventional paint of the same colour.

\*Depending on level of insulation, colour, building shape and function.

## 5 WITHSTANDING THE TEST OF TIME

COLORBOND® XPD PEARLESCENT steel had gone through extensive tests which include accelerated laboratory corrosion tests, real-world outdoor exposure tests and actual project case studies to ensure its performance met the highest expectation in durability.

## 6 EMBEDDED BRANDING TEXT ON THE REVERSE SIDE OF STEEL SHEET

Embedded with branding text on the reverse side of every COLORBOND® XPD PEARLESCENT steel sheet, this is BlueScope's commitment to quality and our assurance to you for product genuinity.

# Colorbond® XPD

PEARLESCENT

Offering you a vibrant selection of colours to match your most prestigious designs.

Copper Penny (SRI:54)

Verdigris (SRI:58)

Aegean Green (SRI:59)

Azure (SRI:49)

Platinum Grey (SRI:53)

Silver Coin (SRI:58)

SRI is calculated using ASTM E1980-01 with Medium Convection Coefficient (12) value reported. This data is approximate values only, may vary based on paint formulation and/or metallic coating thickness.

The colours shown in the colour chart have been reproduced to represent actual product colours as accurately as possible. However, we recommend you to check your chosen colour against actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones.
