

# AUSTRALIAN SALT MARINE CLASSIFICATIONS

## TECHNICAL BULLETIN TB-35

Rev 0, April 2008

This issue supersedes all previous issues

### INTRODUCTION

In a country the size of Australia with its extensive coastline, a wide range of marine environments exist. Such environments range from heavy breaking surf and open bays, to calm harbours, lakes and river estuaries.

There are a wide range of factors that may affect the influence of a marine environment ranging from geography and terrain to prevailing winds and currents.

When building in a marine environment, these factors must be considered when assessing the impact the environment may have on service life of building components.

### DEFINITIONS

**Surf:** Areas exposed to breaking surf and ocean spray

**Exposed:** Open expanses of salt or brackish water exposed to onshore winds, but not typically prone to breaking surf

**Calm:** Protected areas of salt or brackish water, including ports, harbours, bays and river estuaries

### AUSTRALIAN MARINE CLASSIFICATIONS

BlueScope Steel has attempted to classify the wide range of Australian marine types into three (3) primary categories (*based on AS/NZS 2312:2002 guidelines*), for the purpose of simplifying the process for assessing likely marine influence and selection of appropriate BlueScope Steel product.

The table below contains definitions for surf marine, exposed marine and calm marine localities around Australia. Examples for each of these marine types, in both metropolitan and regional areas, are also provided for reference purposes and serve as a **GUIDE ONLY** for the selection of appropriate BlueScope Steel products.

CLASSIFICATION		EXAMPLE LOCATION	
NSW	Metro	<b>Surf</b>	Manly Beach or Bondi Beach
		<b>Exposed</b>	Botany Bay, Sydney Harbour (East of Harbour Bridge), Kurnell
		<b>Calm</b>	Darling Harbour, Parramatta River
	Regional	<b>Surf</b>	Open Pacific Beaches, (Coffs Harbour, Newcastle, Bulli)
		<b>Exposed</b>	Protected coastal waters (Jervis Bay, Port Stephens)
		<b>Calm</b>	Ports/Harbours (Port Hunter at Newcastle, Inner Harbour at Port Kembla), Saltwater Lakes (Lake Macquarie, Lake Illawarra)
QLD	Metro	<b>Surf</b>	Bribie Island, Miami & Southport Beaches
		<b>Exposed</b>	Redcliffe, Cleveland, Fisherman's Island - Moreton Bay The Broadwater (Gold Coast)
		<b>Calm</b>	Gold Coast Canal Estates
	Regional	<b>Surf</b>	Bargara, Mackay
		<b>Exposed</b>	Hervey Bay - protected by Fraser Island, Cairns & Townsville Strand areas
		<b>Calm</b>	Twin Waters Canal Estates

CLASSIFICATION		EXAMPLE LOCATION	
VIC	Metro	Surf	Bass Strait (Mornington Peninsula)
		Exposed	Port Phillip Bay (Altona to Portsea Beaches)
		Calm	Port Phillip Bay (Williamstown), Yarra River (Docklands and Melbourne CBD), Maribyrnong River
	Regional	Surf	Open Bass Strait Surf Beaches (Warrnambool, Lorne, South coastline Phillip Island, Venus Bay, Seaspray)
		Exposed	Bellarine Peninsula, Eastern Shoreline of Westernport Bay, North Coastline Phillip Island, Anderson Inlet at Inverloch
		Calm	Geelong Coastline, Anderson Inlet East of Inverloch, Corner Inlet to Port Albert, Gippsland Lakes (Paynesville, Metung), Lakes Entrance
WA	Metro	Surf	Scarborough Beach, Leighton / Port Beach, Cottesloe Beach
		Exposed	Cockburn Sound, Safety Bay
		Calm	Swan River (west of Narrows)
	Regional	Surf	Cable Beach (Broome), Smith's Beach (Yallingup), Singleton Beach
		Exposed	Geographe Bay, Roebuck Bay (Broome)
		Calm	Leschenault Inlet (Bunbury), Hardy Inlet (Augusta), Peel Inlet
SA	Metro	Surf	N/A
		Exposed	Adelaide coastline (West Beach, Glenelg, Semaphore)
		Calm	Port River (Port Adelaide), West Lakes waterways
	Regional	Surf	Middleton / Port Elliot surf beaches, Robe
		Exposed	Upper coastline of Spencers Gulf (Port Augusta, Port Pirie)
		Calm	Hindmarsh Island Marina
TAS	Metro	Surf	N/A
		Exposed	Derwent River south of Tasman Bridge
		Calm	Constitution Dock (Hobart), Tamar River (Launceston)
	Regional	Surf	Devonport, Somerset, Bicheno, Clifton Beach, Flinders and King Islands
		Exposed	Tamar Estuary (Georgetown), Coles Bay, Stanley Wharf
		Calm	Strachan, St. Helens, Triabunna
NT	Metro	Surf	N/A
		Exposed	Darwin Harbour
		Calm	Cullen Bay marina, Bayview waterways
	Regional	Surf	N/A
		Exposed	Gove, Nhulunbuy, Tiwi Islands, Dundee Beach
		Calm	N/A

#### NOTES:

- The areas listed above are considered to be general examples that typify each of the three marine classifications. However, it should be noted that specific areas located within the above regions may fall outside of the marine classification in which the region has been included.
- The ACT has not been included in the above table because the influence of Lake Burley Griffin is not considered salt marine in nature.
- Compliance with the information above does not guarantee eligibility for a BlueScope Steel warranty.
- Please contact your nearest BlueScope Steel State Office for further information regarding

marine classifications that may apply to your specific project.

- For further terms and conditions regarding the use of BlueScope Steel products, please visit [www.bluescopesteel.com.au](http://www.bluescopesteel.com.au) or call BlueScope Steel Direct on 1800 800 789 or contact your BlueScope Steel State Office

Prevailing winds, shelter, elevation above the marine influence and unwashed areas eg. walls and eaves, are a few of the factors that may impact on the corrosive nature of a particular site. The essential thing to do is consult with your materials supplier or BlueScope Steel Sales Office for the best advice on the most appropriate choice of COLORBOND® steel, ZINCALUME® steel or TRUECORE® steel product.

The information and advice contained in this Bulletin is of a general nature only, and has not been prepared with your specific needs in mind. You should always obtain specialist advice to ensure that the materials, approach and techniques referred to in this Bulletin meet your specific requirements.

BlueScope Steel Limited makes no warranty as to the accuracy, completeness or reliability of any estimates, opinions or other information contained in this Bulletin, and to the maximum extent permitted by law, BlueScope Steel Limited disclaims all liability and responsibility for any loss or damage, direct or indirect, which may be suffered by any person acting in reliance on anything contained in or omitted from this document.

BlueScope COLORBOND®, TRUECORE® and ZINCALUME® are registered trade marks of BlueScope Steel Limited.

*Please ensure you have the current Technical Bulletin as displayed at [www.bluescopesteel.com.au](http://www.bluescopesteel.com.au)*
